

TECHNICAL DATA | E-THERM

◆ SPECIFICATIONS

Propane consumption: 36-48 kg/ha **Working speed:** 4-6 km/h
Hydraulics: 22,5 l/m (depending on weed density)

Width Options: customizable from 1,5 m and up, with foldable designs for transport.

Front or rear mounting using the tractor's three-point hitch system

	E-THERM 1500-3200	E-THERM 3500-UP
CAPACITY	2.23 - 4.75 acres per hour at 3.7 MPH (9.000 - 19.200 m ² per hour at 6 km/h)	4.75 - 9.80 acres per hour at 3.7 MPH (19.200-39.600 m ² per hour at 6 km/h)
POWER	700 hp (519-1.037 kW)	1520 hp (1.133 - 2.171 kW)
WEIGHT	1.543 - 2.425 lb (700 - 1.100 kg)	from 2.425 lb (1.100 - 2.500 kg)
OPERATIONAL WIDTH	5 - 10 feet (1,5 - 3,2 metres)	from 11.5 feet and up (from 3,5 metres and up)

◆ Configuration

Designed to fit your vegetable cultivation system

Cultivation system	Propane Gas Container	Wheels
BEDS	CYLINDER	Ø 16 in (Ø 400 mm)
RIDGES	BOTTLE	
FLAT SOIL	TANK	Ø 24 in (Ø 600 mm)

◆ Additional features

- Emergency stops system
- Easy to operate and maintain
- Online support for assistance
- Hydraulic lock

◆ Benefits

- Low-noise
- Energy saving > 40%
- Wind tolerance
- CO₂ emissions reduction
